

**MICRO ELECTRONICS NEEDLE NOSE PLIERS, JAWS CURVED, SMOOTH, 1 MM WIDE**
**Article number: 101076**

Micro-electronic needle-nose pliers, jaws curved, smooth, 1 mm wide, length 152 mm. Made of case-hardened 3 mm tool flat steel. Cutting edges precision-ground, self-opening due to smooth-running spiral blades, precision-finish burnished, with elastic 2-component plastic handles (except electronic power side cutters CIMCO item no. 10 1054 and 10 1055).

| Attribute                    | Value            |
|------------------------------|------------------|
| Press mold                   | sonstige         |
| Surface protection           | brüniert         |
| Length                       | 152              |
| Material                     | Stahl            |
| Insulated                    | Yes              |
| Shape                        | gebogen          |
| Handle cover                 | Kunststoffhüllen |
| Surface treatment            | sonstige         |
| ESD tested                   | No               |
| Handle design                | 1-Komponenten    |
| Weight                       | 62               |
| With wire cutter             | No               |
| Protective insulation 1000 V | No               |
| With impact protection       | No               |
| VDE-tested                   | No               |
| Head height                  | 25               |
| Head width                   | 1                |
| Length of the jaws           | 25               |
| Low-spark version            | No               |
| With stripping function      | No               |
| Gripping range               | 70 - 70          |
| With side cutter             | No               |
| Forged                       | No               |
| Gripping surface             | glatt            |
