

POWER-CRIMP COMFORT CRIMPING PLIERS

Article number: 107120

The POWER-CRIMP comfort is a crimping tool for wire end ferrules according to DIN 46228. It produces a square crimp in the cross-section range 6 - 16 mm² for single wire end ferrules. The cross-sections can each be individually adjusted for optimum force transmission, so that as little manual force as possible is required for crimping. The POWER-CRIMP comfort convinces with a robust and handy housing, which guarantees safe working under various conditions with non-slip handles.
