

CABLE DETECTIVE

Article number: 111440

The Cable Detective, a test device for network copper cables to detect connection faults in assembled data cables and complete installations. All coaxial connections with BNC/TNC connectors, USB cables as well as all UTP/STP cabling with 6- or 8-pin modular connectors can be tested in seconds for interruptions, PIN assignment and short circuits, both for the individual conductors and for the shielding. With visual (LED) and acoustic fault indication, the lengthy, nerve-racking and expensive search

| Attribute | Value |
|---|------------------------------|
| Measured value memory | No |
| Suitable for | Telefon/ISDN |
| Execution | CATV-Tester (Kabelfernsehen) |
| Add-on unit can be bayed | Yes |
| With measuring head included | Yes |
| Display type | LCD/akustisch |
| Suitable for network protocol measurement | No |
| With PC/printer interface | No |
