

## 1,000 V VDE DUOCUT CABLE SHEARS

**Article number: 120108**

1000 V VDE cable shears DUOCUT, the innovative cable shears for copper and aluminum cables with multi-component VDE sheath. Especially suitable for deformation-free, precise cutting of cables. The legs can be opened up to 140°, thus a longitudinal cut is possible. VDE/GS tested, according to IEC 60900 and VDE 0682/Part 201. Weight: 175g. Highlight: The two-stage cutting edge: 1. large cutting edge for sheathed cables up to max. 10 mmØ. 2. small cutting edge for single wires up to max. 4 mmØ.

| Attribute                             | Value              |
|---------------------------------------|--------------------|
| Execution/actuation                   | mechanisch Einhand |
| Insulated                             | Yes                |
| Handle design                         | 2-Komponenten      |
| Protective insulation 1000 V          | Yes                |
| With impact protection                | No                 |
| VDE-tested                            | Yes                |
| Total length                          | 160                |
| Suitable for max. cable diameter      | 10                 |
| Suitable for steel wire braiding      | No                 |
| Replaceable cutting head              | No                 |
| Suitable for solid conductors         | Yes                |
| Suitable for stranded conductors      | Yes                |
| Max. Cable cross-section              | 50                 |
| Replaceable cutting jaws              | No                 |
| Suitable for fine-stranded conductors | Yes                |
| With stripping function               | No                 |
