

## GAS SOLDERING IRON SET, 10-PIECE

### Article number: 150800

Gas soldering set, 10-piece . For demanding soldering tasks without obstructing cables, wherever a power supply is not possible, e.g. in the installation, service and repair sector. Thanks to various interchangeable attachments also suitable for heat shrinking, micro welding and cutting of plastic foils and plates. Suitable. With electronic ignition, power infinitely variable, open flame temperatures up to 1,300°C, soldering up to 500°C, heat shrinking up to 500°C, burning time approx. 60 min. In a handy storage and transport case made of impact-resistant plastic with viewing window. Set consisting of 1 piece each; gas soldering iron set 275x160x45 mm. Consisting of: Gas soldering iron with cap, locking device (CIMCO item no. 15 0810), soldering tip pencil point (CIMCO item no. 15 0820); soldering tip 3 mm one-sided oblique (ellipse shape) (CIMCO item no. 15 0821), soldering tip 3.5 mm slanted on both sides (chisel shape) (CIMCO item no. 15 0822), hot knife 12.5 mm blade width for cutting

Attribute	Value
Weight	405
Rated power	25 - 125
Ignition	Piezo
Soldering tip shape	Set
Soldering tip version	Dauerlötspitze
Max. temperature	580
Operating time with one gas filling	120
Heating time	2
Soldering tip diameter	2

GTIN: 4021103508008
