

INSPECTION STICKER RED "BLITZ", Ø- 30 MM, 108 PIECES PER BOOKLET
Article number: 182670

Test badges Test badges are used within the framework of quality assurance (QA) DIN ISO 9000 ff as well as e.g. for the legally prescribed inspections and for accident prevention (UVV). This applies in particular to the monitoring of test equipment, devices and systems as well as important supply lines (cables, pipes). You have two options for attaching the inspection stickers: directly on the tested device or on one of the basic stickers offered, which is stuck on the device. The test date is marked

with a pen or notched pliers. The test badges are made of tamper-proof document foil, i.e. to protect against misuse, the badge is irrevocably destroyed when an attempt is made to remove it. Characteristics of the document foil: The document foil can be written on with pencil, ballpoint pen, fiber pen or typewriter. It is 0,05 mm thick and is temperature resistant from 30 degrees C to +80 degrees C. The adhesive strength is higher than the tear strength of the film. It breaks when removed and is

Attribute	Value
Material	sonstige
Material quality	sonstige
Color	rot
Execution	Folie
Fluorescent	No
Photoluminescent	No
Mounting type	sonstige
Shape	rund
UV-resistant	Yes
Halogen-free	Yes
Waterproof	No
With warning/instruction symbol	No
With warning/instruction text	No
