

AUTOMATIC WIRE STRIPPER FLEXI-STRIP 16 SYSTEM

Article number: 107000

The FLEXI-STRIP 16 system set consists of a frame with two different stripping cassettes. It is a self-adjusting cutting and stripping tool for the cross-section range 0.02 - 10 mm² (black cassette) and 4 - 16 mm² (red cassette), with an adjustable stripping length of 3 - 18 mm. Due to the fine adjustment of the blades, thin and thick cable insulation can be easily removed without damaging conductors. In addition to the ergonomic design, the FLEXI-STRIP 16 system also convinces with a robust frame and a reliable mechanism. Both have been tested for over 150,000 stripping operations (with 1.5 mm² / PVC conductors). The durable cutting function offers the possibility to cut flexible conductors up to 10 mm² and rigid conductors up to 1.5 mm². The stripping cassettes can be changed without tools to provide the best convenience for different cross-section range.

Length (mm)	197 mm
Width (mm)	92 mm
Height (mm)	32 mm
Weight (kg)	0,168 kg

Attribute	Value
Adjustable notch depth	Yes
Round cut	No
Replaceable blades	Yes
Longitudinal section	No
Spiral cut	No
Stripping area Cross-section	0.02 mm ² - 16 mm ²
Stripping range Diameter	0.16 mm - 3.5 mm
