

AUTOMATIC WIRE STRIPPER FLEXI-STRIP 4

Article number: 107030

The FLEXI-STRIP 4 PTFE is a self-adjusting cutting and stripping tool for the cross-section range 0.1 - 4 mm², with an adjustable stripping length of 3 - 18 mm. Due to the fine adjustment of the V-shaped blade, thin and thick cable insulation can be easily removed without damaging conductors. The geometry of the blade also makes it possible to remove the insulation from high-temperature resistant PTFE cables. In addition to its ergonomic design, the FLEXI-STRIP 16 also features a robust frame and reliable mechanism. The frame has been tested for over 150,000 stripping operations (with 1.5 mm² / PVC conductors). The durable cutting function offers the possibility to cut flexible conductors up to 10 mm² and rigid conductors up to 1.5 mm². The stripping cassettes can be changed without tools to provide the best convenience for different cross-section ranges.

Length (mm)	197 mm
Width (mm)	92 mm
Height (mm)	32 mm
Weight (kg)	0,161 kg

Attribute	Value
Adjustable notch depth	Yes
Round cut	No
Replaceable blades	Yes
Longitudinal section	No
Spiral cut	No
Stripping area Cross-section	0.1 mm ² - 4 mm ²
Stripping range Diameter	0.3 mm - 2.4 mm
