

AUTOMATIC WIRE STRIPPER FLEXI-STRIP 4

Article number: 107030

The FLEXI-STRIP 4 PTFE is a self-adjusting cutting and stripping tool for the cross-section range 0.1 - 4 mm², with an adjustable stripping length of 3 - 18 mm. Due to the fine adjustment of the V-shaped blade, thin and thick cable insulation can be easily removed without damaging conductors. The geometry of the blade also makes it possible to remove the insulation from high-temperature resistant PTFE cables. In addition to its ergonomic design, the FLEXI-STRIP 16 also features a robust frame and reliable mechanism. The frame has been tested for over 150,000 stripping operations (with 1.5 mm² / PVC conductors). The durable cutting function offers the possibility to cut flexible conductors up to 10 mm² and rigid conductors up to 1.5 mm². The stripping cassettes can be changed without tools to provide the best convenience for different cross-section ranges.

Length (mm) 197 mm
Width (mm) 92 mm
Height (mm) 32 mm
Weight (kg) 0,161 kg

GTIN: 4021103100721
