

RATCHET COMBINATION WRENCH T120 FLEX, SW 19

Article number: 112546

T120 FLEX ratchet combination wrench with fine toothing for ratcheting loosening or quick tightening of screws and nuts in one go. 120 teeth stand for highest performance and minimum return angles already from 3°. Ring wrench element can be swiveled by 2x90° for working from above or in confined spaces. Left or right rotation by simply turning the wrench, with additional color marking. The open-end wrench tool with the individually developed flank geometry allows the wrench to be reset in the working plane - comparable to a ratchet function, no lifting of the open-end wrench is required! Ergonomic handle design with only 3 mm height for excellent power transmission. Made of chrome vanadium steel, specially hardened. Surface nickel-plated matt black. SW 19 mm; Length: 245 mm

Length (mm)	250 mm
Width (mm)	41 mm
Height (mm)	12 mm
Weight (kg)	0,23 kg
