

JOKARI® CABLE KNIFE WITHOUT BLADE, 8 - 28 MM Ø, 2-COMPONENT TOOL

Article number: 120014

Jokari® cable knife without blade for slitting and stripping damp room cables, 2-component tool with easy-grip softgrip insert for optimum handling and thumb recess 8 - 28 mmØ. Million times proven cable blade for round and longitudinal cut, cutting depth individually adjustable via screw, so that damage to the inner conductors is excluded. Handles made of wear-resistant polyamide. Both the tips of the internal cable knives and the cutting edges of the attached bow blades are titanium nitride coated. At approx. 500°C, titanium nitride is vapor-deposited onto the cutting blade in the vacuum chamber using the PVD process. Due to the reduced surface structure and the extremely high hardness, excellent sliding properties and high wear or abrasion resistance are achieved. TiN-coated Both the tips of the internal cable blades and the cutting edges of the attached bow blades are titanium nitride coated. At approx. 500° C, titanium nitride is vapor-deposited onto the cutting blade in the vacuum chamber using the PVD process. Due to the reduced surface structure and the extremely high hardness, excellent sliding properties and high wear or abrasion resistance are achieved. TiN-coated blades can be used with significantly higher durability and cutting performance.

Length (mm)	255 mm
Width (mm)	80 mm
Height (mm)	35 mm
Weight (kg)	0,086 kg

Attribute	Value
Foldable	No
Protective insulation 1000 V	No
Total length	255 mm
With protective cover	No
With scraper	No
Extendable	No
Length of the blade	- mm
Material of the handle	Kunststoff
Blade shape	sonstige
