

## CORROSION PROTECTION TAPE, BLACK, 50 MM X 33 M

**Article number: 160282**

Anti-corrosion tapes, extra strong PVC film, coated on one side with non-corrosive, aggressive adhesive, highly durable PVC adhesive tapes with high abrasion resistance, UV resistance and water resistance (also salt water), resistant to alkalis and many acids, microorganisms, bitumen compatible, as an outer wrap for additional protection against wear due to abrasion, weathering and corrosion, thus extending service life and reducing frequent maintenance work, as stone chip, tread and scratch protection for exposed and buried cables, pipes and joints of cables and pipelines, corrosion protection of exposed cables and pipelines (e.g. on ships, in ships' cabins, in the sea, in the sea, etc.). e.g. on ships, in wet plants, in the chemical industry), excellent mechanical and corrosion protection for installation pipes and poles inserted into the ground, base protection for electrical appliances (washing machines, dryers, freezers). Tape thickness 0.44 mm, for particularly heavy duty. Execution in the color black; WxL: 50 mmx33 m.
