

CIMCASE STARTER ELECTRIC

Article number: 178000

The CimCase Starter Electric tool case is a compact and robust companion for professional use on construction sites and in the service sector. It was specially developed to meet the requirements of electricians and industrial electricians and impresses with its ergonomic design, clear organization, and durable construction.

The base tray, with a depth of 85 mm, offers sufficient storage space even for larger tools and accessories, such as drill bits. Despite its compact dimensions, the case remains light and easy to handle, making it ideal for mobile use.

The CimCase Starter Electric is equipped with two sturdy tool panels that allow for a structured arrangement of tools with more than 60 storage options. The case is equipped with 30 professional tools for everyday use. The practical selection includes insulated 1,000 V hand tools, various pliers and screwdrivers, cutting and stripping tools, and other accessories for typical electrical work. Additional features include a TSA combination lock, a labeling field for clear identification, and a spring-loaded handle for comfortable carrying.

The CimCase Starter Electric is reduced to the essentials and yet offers everything you need for everyday professional work. It is ideal for beginners, for service use, and for all applications where clarity, mobility, and ease of handling are paramount. The case is also available in a "Plus" version with additional tools.
