

CIMCASE STARTER ELECTRIC PLUS

Article number: 178000P

The CimCase Starter Electric Plus tool case is a compact and robust companion for professional use on construction sites and in the service sector. Specially designed for electricians and industrial electricians, it impresses with its ergonomic design, clear interior organization, and durable construction for everyday use.

The base tray with a depth of 85 mm offers sufficient storage space - even for larger tools and accessories such as drill bits. Despite its compact dimensions, the case remains light and handy and is ideal for mobile use. Equipped with two sturdy tool panels, which allow for a structured arrangement of tools with more than 60 storage options.

The Plus version is equipped with 35 selected professional tools, offering an extended basic set for everyday electrical engineering work. The practical selection includes insulated 1,000 V hand tools, various pliers and screwdrivers, cutting and stripping tools, and additional special tools for installation and maintenance work.

Convenient features include a TSA combination lock, a labeling field for clear identification, and a spring-loaded handle for comfortable carrying. The CimCase Starter Electric Plus is lightweight, compact, and yet comprehensively equipped. It is ideal for beginners, for mobile service use, and for all applications where clarity, flexibility, and ease of use are paramount.
