

## TWIN WIRE END FERRULES SET COLOR SERIES 1, 0.5 TO 10 MM<sup>2</sup>, 100 PIECES EACH

**Article number: 181532**

The twin ferrules set in color series 1 includes all common cross-sections from 0.5 to 10 mm<sup>2</sup> and offers 100 pieces per size. All ferrules are supplied in practical Racco boxes, sorted by cross-section. This makes it much easier to keep track of and handle them. The twin design enables two conductors to be crimped cleanly in one sleeve and is therefore ideal for installation companies, maintenance and professional switch cabinet construction. The color series 1 ensures clear and quick assignment of the appropriate cross-section, making the work process considerably easier. The high quality guarantees safe, clean and permanently stable conductor connections.
