

TWIN WIRE END FERRULES SET COLOR SERIES 2, 0.5 TO 10 MM², 100 PIECES EACH**Article number: 181533**

The twin wire end ferrule set in color series 2 covers all common cross-sections from 0.5 to 10 mm² and contains 100 pieces of each size. All ferrules are supplied in practical Racco boxes, sorted by cross-section. This makes it much easier to keep track of and handle. The twin design enables two conductors to be crimped safely and cleanly in one sleeve. This makes the set particularly practical for installation companies, maintenance and professional switch cabinet construction. The color series 2 ensures quick and clear assignment of the appropriate cross-section, which makes the work process much easier. The high-quality production guarantees stable, clean and permanently safe conductor connections.

Length (mm)	239 mm
Width (mm)	192 mm
Height (mm)	57 mm
Weight (kg)	0,64 kg
