

HOLE SAW SET FOR SWITCH BOXES Ø 76 MM

Article number: 207560

The hole saw set for switch boxes with a diameter of 76 mm is optimally matched to the common standard dimensions of switch boxes and is ideal for use in electrical installations. The complete set is ready for immediate use and contains all the necessary components: a hole saw with a diameter of 76 mm, an SDS Plus shank (item no. 207589), an HSS pilot drill (item no. 207590), and an ejector spring (item no. 207596) for easy removal of the drill core. The robust design ensures a long service life and reliable results - even when drilling multiple holes on the construction site.

Thanks to the SDS Plus shank, the set is compatible with all common hammer drills. Its ease of use and high precision make it the ideal tool for electricians, drywall installers, and anyone who values clean and efficient switch box installations.

Length (mm)	76 mm
Width (mm)	76 mm
Height (mm)	140 mm
Weight (kg)	0,502 kg

Attribute	Value
Diameter	76 mm
Suitable for aluminum	Yes
Suitable for steel	Yes
Suitable for stainless steel	No
Suitable for plastic	Yes
Suitable for wood	Yes
Cutting depth	50 mm
Center drill diameter	6.35 mm
Edge countersink	No
Suitable for plasterboard	Yes
Suitable for glass fiber reinforced plastic	Yes
Suitable for brass	Yes
Suitable for cast iron	Yes
Suitable for non-ferrous metals	No
Recording system	sonstige
