

SDS-PLUS HAMMER DRILL HELIX, 14 MM

Article number: 208573

Robust one-piece carbide plate drills through reinforcing steel, with durable performance and consistent precision. 4x90° geometry with specially developed cutting edges of the same height and stable shoulders ensure precise, dimensionally accurate holes for professional anchor setting and secure dowel fastenings. Short spiral starts ensure rapid removal of the drill dust. The radially shaped reinforcement guard: prevents hooking in the event of reinforcement hits and increases the service life. Wear marks: to assess whether the tool is still suitable for drilling dowel-compatible holes, the 4-spiral drill body ensures pleasantly quiet drilling with low vibrations and optimum guidance in the drill hole. The 4x4 design allows precise concentricity and minimizes wear and friction losses. This results in a high and very consistent drilling performance over the entire service life with maximum cost-effectiveness

Length (mm) 513 mm

Width (mm) 36 mm

Height (mm) 14 mm

Weight (kg) 0,251 kg

Attribute	Value
total length	450 mm
Shank shape	zylindrisch
Suitable for steel	Yes
Suitable for stainless steel	Yes
Suitable for plastic	No
cutting material	sonstige
cutting direction	rechts
Number of cutting edges	4
With cooling channel	No
Shank diameter	10 mm
cutting length	400 mm
Suitable for wood	No
Center drill diameter	- mm
Suitable for cast iron	Yes
Recording system	SDS-plus
With centering drill bit	No
Suitable for non-ferrous metals	Yes

 info@cimco.de • cimco.de

Suitable for stone	Yes
Suitable for concrete	Yes
Suitable for tiles	No
Suitable for ceramics	No
Suitable for glass	No
Drill diameter	14 mm
spiral drill	Yes
With quick-release fastener	No
Thru axle with flat end	Yes
Double-sided drill bit	No
Angle of the tip	90 °
Suitable for drilling	No

GTIN: 4021103090626
